

University of Arizona Inaugural AI Campus Champions Cohort, an AI leadership opportunity designed for faculty and staff committed to advancing institutional transformation through the applied use of artificial intelligence.

This summer program is an experiential, production-oriented learning community where participants collaborate to build real-world AI capabilities across teaching, research, student support, operations, and administration. This will be followed by serving as an AI Campus Champion throughout the academic year.

Program Timeline

- Application Deadline: May 20, 2026
- Announcement of Selected Members: June 5, 2026
- Cohort Dates: June 15 – July 29, 2026

Program Structure

- Duration: 6 weeks
- Weekly Commitment: Approximately 4 hours
 - 1-hour synchronous group meeting
 - 3 hours of independent, applied work
- Format: Collaborative, hands-on, project-based
- Compensation: This is an unpaid professional development opportunity
- Receive a \$5,000.00 stipend for the 6-week summer program

Program Expectations

Participants will:

- Apply AI tools and strategies to real work within their roles
- Develop **tangible, meaningful artifacts** that advance AI-informed practices
- Contribute to curriculum innovation, institutional policy, and implementation of best practices
- Share outcomes that can be scaled across communities of practice

Why Participate?

As an AI Campus Champion, you will:

- Gain hands-on experience applying AI in your specific professional context
- Collaborate with a cross-campus network of innovators
- Help shape the future of AI integration within the institution
- Serve as a leader and resource for responsible, impactful AI adoption

Application Requirements

Please complete the [registration form](#) and submit:

- Name
- Email
- Position Title
- Department/Unit
- Brief description of why you are interested in participating
- Letter of support from your Department Head or Office Director

How to Register

Please click on this [registration link](#) to complete your application.

We encourage applications from individuals across all disciplines and functional areas who are motivated to lead and innovate with AI in meaningful ways.
